

Benchmark 4000 and 5000N

The only 4000/5000 MBH boiler that can fit in a freight elevator

With AERCO's Benchmark 4000, you'll still **SAVE** time and money by reducing install, startup and operating costs; **SIMPLIFY** startup and maintenance; and **STRENGTHEN** system performance and efficiency...but now you can fit all 4000 MBH in a freight elevator and through a standard 36" doorway.

More power in a small footprint.
